

Heart Snowflake

Create a delicate snowflake full of hearts! For even more crafty fun, cut it out of a thicker, dark colored paper and glue colorful pieces of kite paper to the backside to create a suncatcher to hang in a window.

1. Cut out the square.
2. Fold on all of the dotted lines, making sure to keep the design visible.
3. While folded, cut out the heart design.
4. Unfold and admire your heart snowflake!
