

Pop Up Heart Card

Create a fun pop up surprise!

1. Color the card & heart.
2. Cut out on the solid lines.
3. For the card: fold in half on the dotted line.
4. For the heart: mountain fold the center dotted line and valley fold the others to create two tabs.
4. Apply glue as indicated on the card and adhere the two tabs of the heart.

TIP: For a sturdier card, print on cardstock. Alternatively, use these as templates and trace them onto special paper that might not be able to go through a printer.
