

Brothers and Sisters Cut + Color

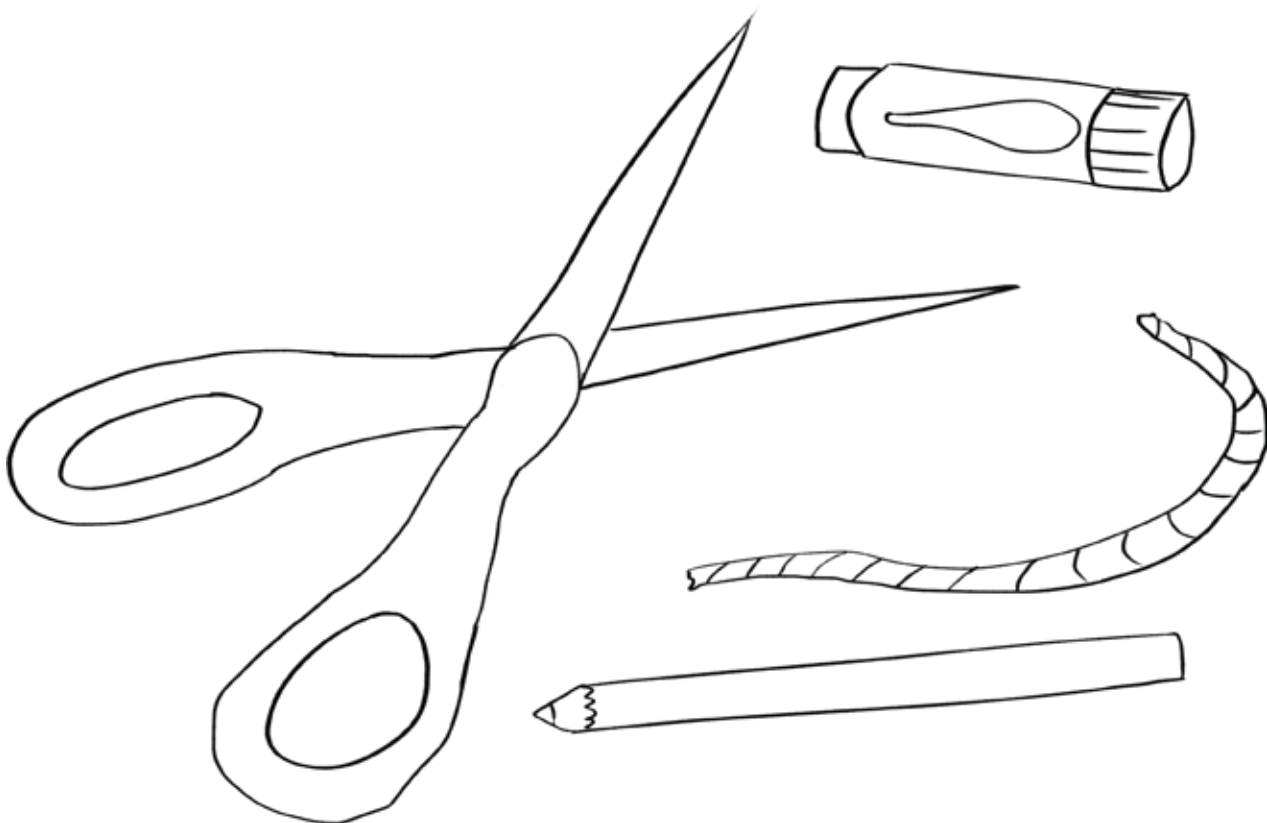

What you'll do:

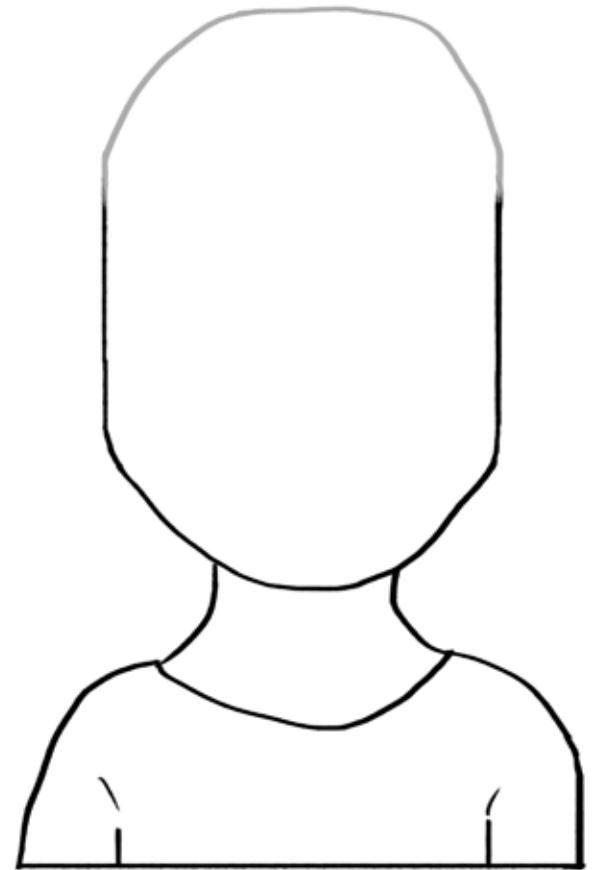

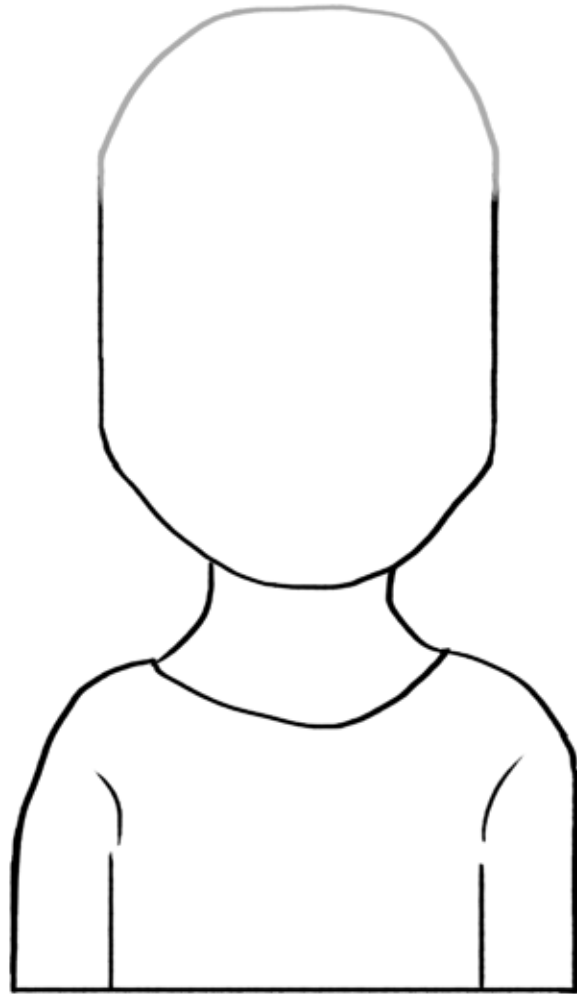

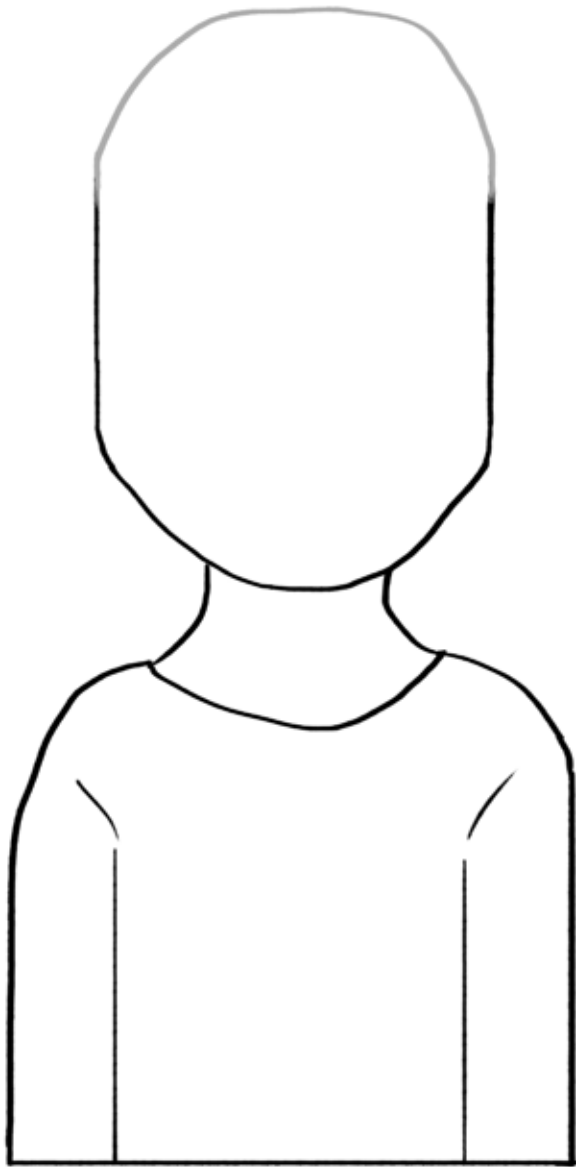

1. Print the frame and the silhouettes.
2. Children can color silhouettes to resemble themselves and their siblings (or cousin or best friend).
3. Glue the two silhouettes to the frame to create their own portrait.

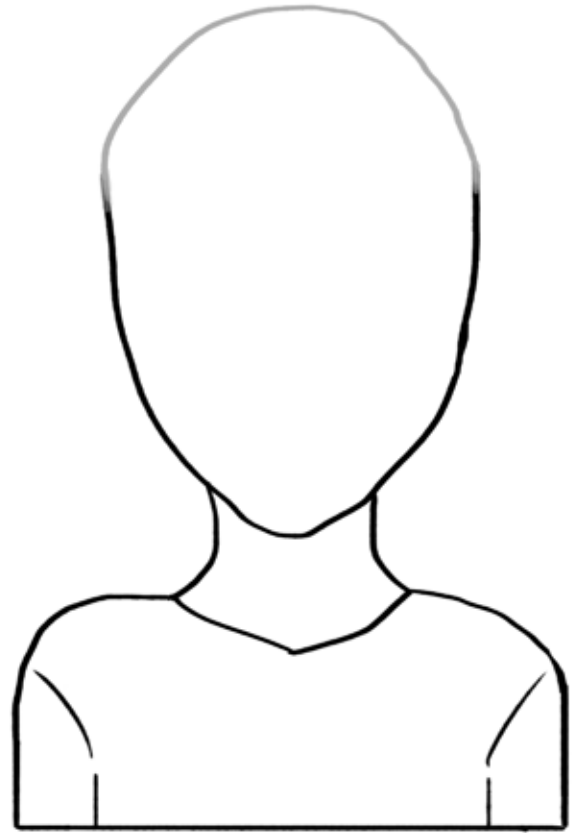

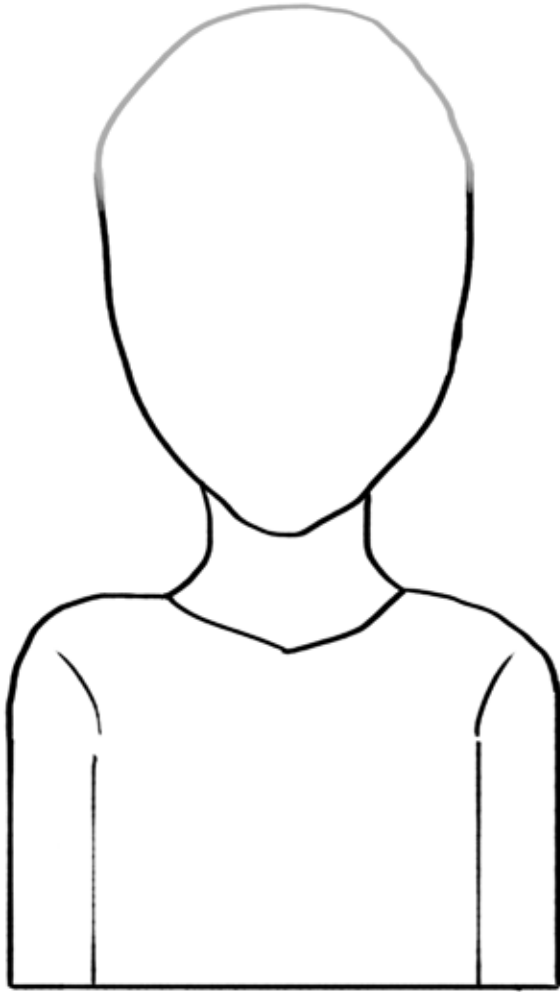

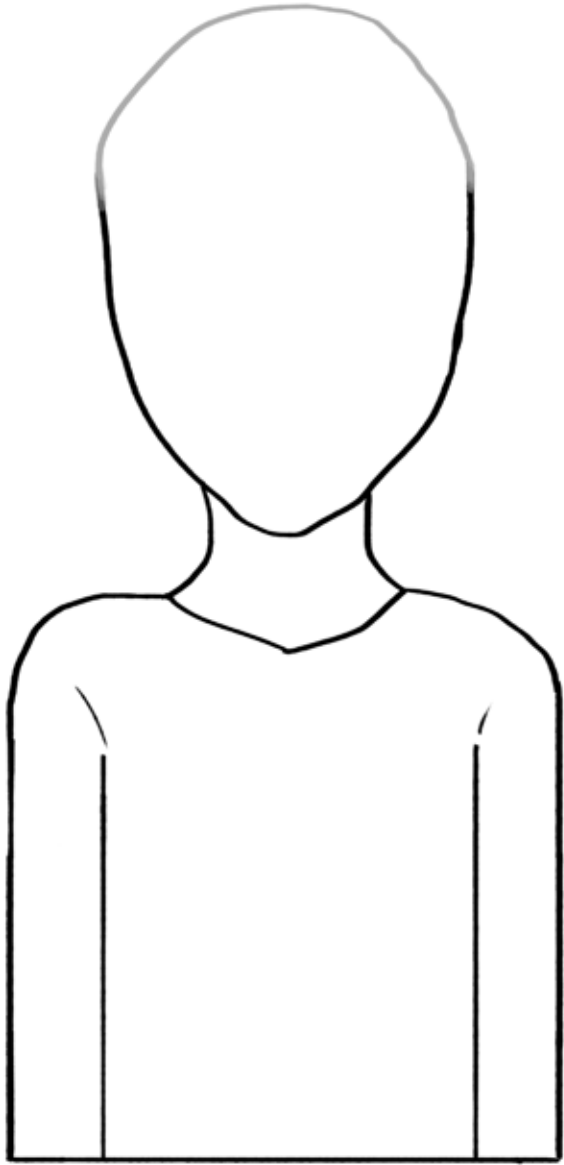

Other Ideas:

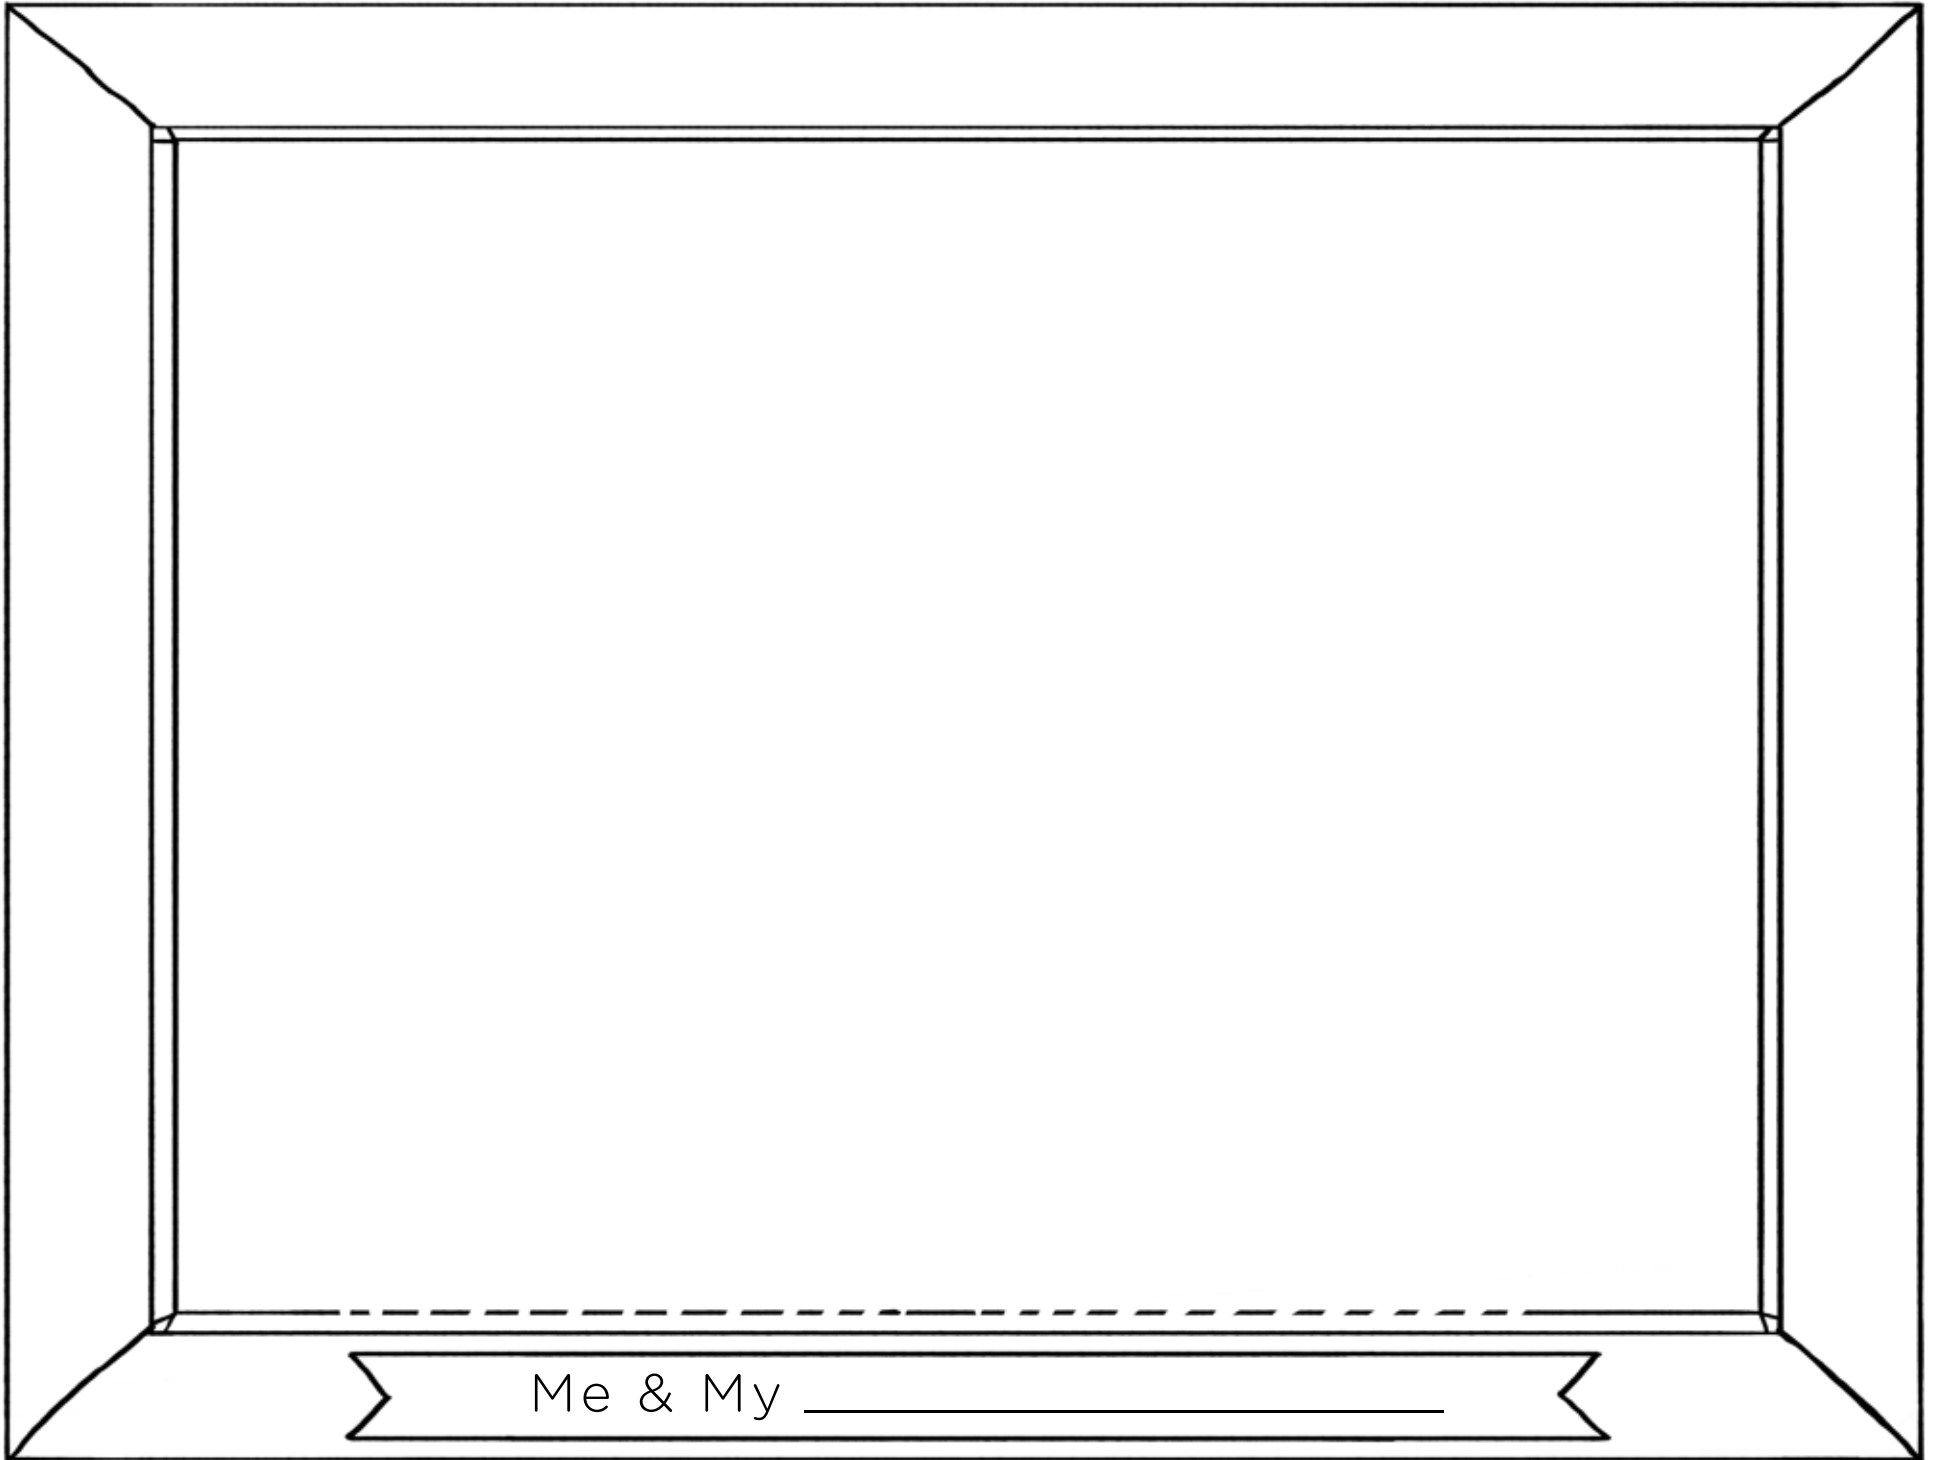

- Make the background of the picture a place they have been or would like to go with their brother or sister.
2. Enhance the experience using scraps of yarn and fabric on the people for their hair and clothes.
 3. Decorate the frame.
